

PATIENT-LED : CLINICALLY APPROVED

AWARENESS, EDUCATION, TRAINING & SUPPORT

Bespoke patient-led clinically approved support & comms 24/7

- Direct Communication - all patients
- Tailored Education for each patient
- My T1D - Promoting Resilience

Communication Features - Improving care together

Your Clinic:

Communicate directly with all your patients through our individual clinic dashboard to send out Push Notifications, Newsletters, good care & data download reminders

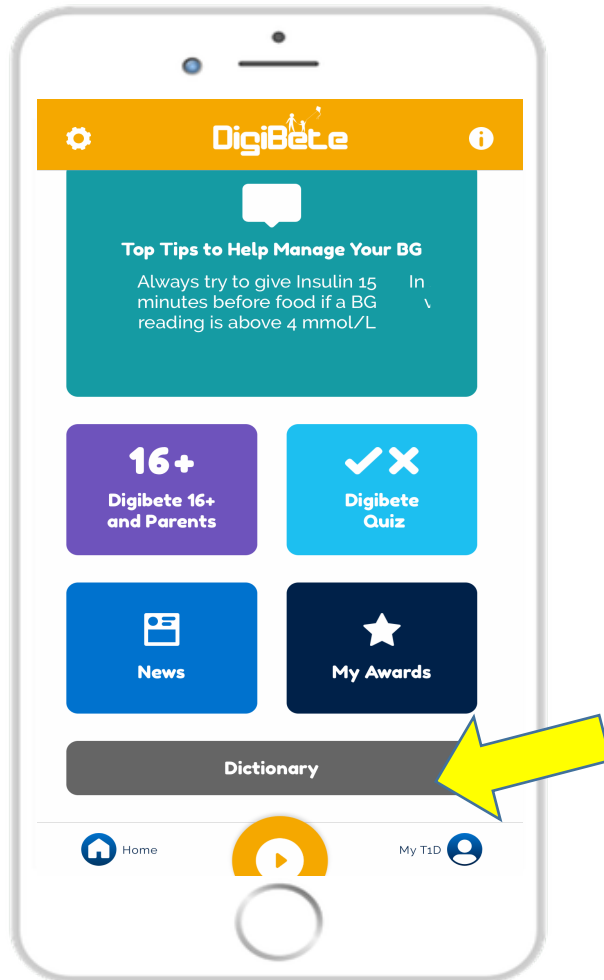

DigiBete:

Will send out new Micro-Learning & Clinically Approved Resources to support good care and tracked back to your clinic with analytics.

- Support Patients to achieve better care habits

Age Specific Education Tailored with Rewards

Your Clinic:

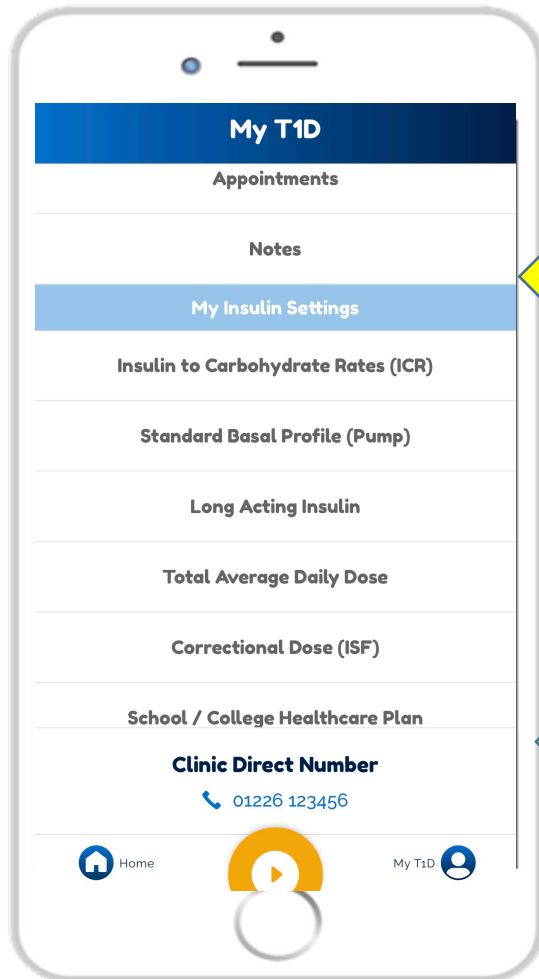

Enable young people and families to receive only resources relevant to them with an in-built Reward System helping them to see how well they are doing with their diabetes knowledge

- Improve & track education and self-esteem and reduce complications

With a dictionary function supporting all the new terminology families encounter.

Promoting Self-Efficacy with My T1D

Enable young people and families to record their ratios and organise their appointments – **Reduce DNA's**

My T1D is a handy place to save & review your care plan

My T1D ensures all patients have access to their clinic number
- **Avoid costly emergencies**
