

Ho Ho Hypo

T'was the night before Christmas and all through the town,
Digi-Elf was excited but then started to frown.

They were cleaning the workshop but then heard a sound.
Their sensor was beeping, beeping so loud.

The head elf came over all worried and said,
“time to check your glucose we need to get to bed”

A prick on the finger is all that it takes.
A low number comes up, Santa stepped on the brakes.

Over he comes saying “no need to worry,
have a hypo treatment you’ll feel better in a hurry.”

A quick bit of glucose, a relax and sit down.
Digi-Elf then felt better, ready for town.

Santa invited him to sit on the sleigh
and now they are ready for the big special day.

Diabetes hasn’t stopped the happy Digi-Elf.
A little bit of help and he can just be himself.

T’was the night before Christmas, the presents were all ready.
Santa and Digi-Elf, on your marks get steady....
