

Top Tips for Enjoying Christmas

All was quiet on this cold December night!
But what's this? Digi-Elf is no longer on the shelf!!!
Is Digi-Elf hunting out the carbs of Christmas
Dinners? Helping us families to become carb
counting winners?

Yes! That's exactly what our wonderful Digi-Elf has been doing. Whilst
decorating trees and wrapping up presents, Digi-Elf has also been
helping Frances with her Festive Kitchen and together they have
created a Christmas list of foods that Santa would most definitely
approve of. Take a look at their festive list below.

If you're leaving a note for Santa on Christmas Eve be sure that you tell him what the carbs are for his mince pie that you've left him and the carrot you've left for Rudolph. It will delight the elves this Christmas to know their hard work is helping everyone this festive season!

Top Tips

Digi-Elf loves to see everyone happy on Christmas day and also loves checking glucose numbers. So be ready to show your numbers if asked. Make sure you can easily access your insulin pump, CGM or flash sensor whilst cozying up in your favourite Christmas jumper!

After your Christmas lunch you may want to head out for a nice afternoon stroll wrapped up in new scarves and hats that your Auntie and Uncle may have knitted. You might find your insulin needs could change slightly as this stroll is exercise so be sure to keep an eye on levels.

That's not all. Keep an eye out for Digi-Elf this week, for more top tips for the Festive season in the run up to Christmas.
